--	--

Description

Complete and unbroken, i.e. intact, preserved example of Roman glass (blowing) art. - Vessels of this type were also used in the household for preserving fruit, fish and for making sour milk. In addition, the Romans used a special form of olla, the olla ossuaria, which was used to hold the ashes of the deceased. This specimen probably originates from this context. (AVS)

Basic data

Material/Technique: Glass / blown
Measurements: Height: 29 cm

Events

Created	When	1-200 n. Chr.
	Who	
	Where	Rhineland
